Dear Judge Roberts,

The PACER System is broken and contributes to the inequity of arms. Access to filings and orders is essential to understanding how the courts reach their decisions. In our Common law System and understanding of the relevant precedents cannot be dependent on the ability to pay. Your advocacy in the Judicial Conference for more equal and open access can make a real impact on the legitimacy of our Courts.

I am writing to support the dropping of fees associated with PACER. Dear Your Honor,

~~I studie~~ PACER should be free to access and download documents. I studied Urban Planning at MIT, a field that often touches on public administration. By allowing for free access to large numbers of documents, summaries and analyses can more easily be made for and by the public to better understand our own use of the courts. Please allow PACER to be opened for free access
